EXPERIENCE

AcademyStack, LLC — FrontEnd Developer

Nov 2020 - Present // Contract

- Draft and design user interface structures.
- Test and evaluate new programs ensuring optimal performance and runtime speed.
- Modify the software to fix errors and improve its performance.
- Deploy software tools, processes, and metrics.
- Prepare reports on programming project specifications, activities, and status.

Junior Chamber International — Director of Media & Comms.

May 2020 - Present // Part Time

- Worked with the design team to build the **JCIN UNIBEN** web application increasing brand visibility by more than **50%**.
- Prepared reports on programming project specifications, activities, and status and documentation to guide incoming developers.

Edo State Skills Development Agency — Frontend Developer

May 2021 - July 2021 // Internship

- I designed and implemented user interfaces for promotional web pages for **Edo Virtual Fair**, a program designed to connect Edo indigenes with job offers from interested companies.
- I collaborated with a team of designers and developers to convert design mockups into code for additional pages on the **EdoJobs** website.

HNG Internship — Frontend Developer

May 2020 - August 2020 // Internship

- I developed and maintained code for in-house web applications primarily using HTML, CSS, Laravel Blade Templates, and JavaScript.
- I implemented responsive web templates from Figma wireframes for sale on the Envato market.
- I tested pages in various browsers and devices ensuring responsiveness and cross-browser compatibility.
